**Allegheny County Borough Official Appointed to Statewide Public Policy Board**

The Chrostwaite Institute has appointed William S. Rossey to serve on its Board of Directors through Dec. 31, 2019. The Institute focuses on such key areas as government efficiency, community investment, transportation, water infrastructure, economic development, and the promotion of civic engagement in local communities.

Rossey's appointment follows his election as 2<sup>nd</sup> Vice President of the Pennsylvania State Association of Boroughs (PSAB) during its 104<sup>th</sup> Annual Conference in Lancaster in April.

Rossey was recently appointed borough manager in Sharpsburg Borough, but previously served as the borough manager in Tarentum since 2006. He is currently seeking a seat on Tarentum Borough Council, a role he served prior to being named borough manager.

A lifelong resident of Tarentum Borough, Rossey attended Highlands High School where he developed a keen sense of community involvement through his service on numerous civic and community service organization boards over the years. Prior to being named borough manager, he served as store manager of the Natrona Heights Shop n' Save Supermarket, and as a Rehab Technology Specialist for Blackburn's Physicians Pharmacy. An avid golfer and cook, Rossey also enjoys learning about the history of the region and traveling. He also serves as a Pennsylvania Notary Public.

"Bill Rossey's expansive community service experience and management expertise makes him a strong addition to the Chrostwaite Institute's leadership team, and his knowledge of local government and community involvement will prove to be valuable assets as our board seeks to research numerous policy matters that impact Pennsylvania's boroughs" said Sam Worley, Chairman of the Institute's Board. "He is an exceptional community leader with a supreme interest in strengthening the relationship between local governments and their communities."

**About the Chrostwaite Institute**

The Chrostwaite Institute is an independent, nonpartisan, nonprofit organization dedicated to research and analysis. It focuses on such key areas as government efficiency, community investment, transportation, water infrastructure, economic development, and the promotion of civic engagement in local communities.
